Muhammad Shehroz Mumtaz

AI QA Engineer | Test Automation | Mobile & Web | AI/LLM Testing
Email: shehrozmumtaz824@gmail.com | Phone: +92 330 8239317 | Karachi, Pakistan (Open to Relocation – Netherlands)
Portfolio: shozbro.github.io | LinkedIn: linkedin.com/in/shehrozmumtaz | GitHub: github.com/shozbro

PROFESSIONAL SUMMARY

QA Engineer specializing in test automation, AI/LLM testing and manual quality assurance for enterprise mobile and web applications. Delivers end-to-end quality for Fortune 500 digital workplace products: test strategy, API validation, Playwright and Selenium regression automation, agentic QA tooling and Agile release management. My portfolio includes a published QA report from 87 automated tests run against the site itself. Actively seeking a Senior QA Engineer role in the Netherlands.

WORK EXPERIENCE

QA Engineer | Folio3 – CXAI (CXApp) Dec 2025 – Present · Karachi

- Lead end-to-end QA for CXAI, an AI-powered enterprise employee experience platform used by Fortune 500 companies including Warner Bros., PepsiCo, FOX and NBCUniversal, covering desk and room booking, office mapping, internal communications and amenities.
- Developed and maintained 100+ test automation scripts using Selenium and Playwright, reducing regression cycle time by 24 hours.
- Designed and executed test strategy covering functional, regression, smoke, sanity and exploratory testing across iOS and Android apps and web.
- Executed AI/LLM and agentic workflow testing for CXAI 2.0, including webhook validation and automated smoke tests.
- Conducted API testing with Postman and Swagger; logged and tracked defects in Jira with reproduction steps, severity and root cause analysis.
- Authored test plans, test cases and edge case coverage in Confluence; signed off release readiness in CI/CD-aligned Agile sprints.

QA Automation Engineer | Mailmunch Oct 2025 – Nov 2025 · Karachi

- Executed smoke, sanity and regression suites for releases of a SaaS email marketing platform; performed mobile and web testing.
- Managed release cycles and defect tracking in Jira; kept test scripts under Git version control.

QA Engineer | Advertising Specialty Institute (ASI) Sep 2024 – Oct 2025 · Karachi

- Performed API testing and validation with Postman and Swagger across multiple web application releases.
- Managed regression cycles and test documentation in Jira; executed smoke and sanity suites on mobile and web for release readiness.

Junior QA Engineer | Stixor Technologies Oct 2023 – Apr 2025 · Karachi

- Moved from SQA Trainee to Junior QA Engineer in four months.
- Built and maintained reusable Cypress automation for regression testing of web applications.
- Reported and tracked defects in Jira and Azure Boards; worked with Git, Postman, JMeter, OWASP ZAP, TOSCA and TestComplete.

QA Intern | Coderatory Aug 2023 – Oct 2023 · Karachi

- Executed manual test cases, logged reproducible bugs with severity and priority, and managed cases in TestRail and TestWorthy.

PROJECTS

SDLC AI Factory: reproduction & verification module | Folio3 company competition, team of 5 2026

- Agentic pipeline that takes a Jira ticket through quality gates to a draft pull request on the CXApp Android app.
- Built the module that reproduces the reported bug on an Android emulator, reads the screen, navigates the app and verifies that the pull request fixes it.

  Tools: Claude, Python CLI, Android emulator, Jira

Web Parity Automation & F3 QA Agent | Folio3 2026

- Planned and built Playwright automation with the Page Object Model for 22 web parity items; scripts generated with the F3 AI agent on Claude, run in GitHub Actions and reported in Allure.
- Drive the QA Control Center automation agent for CXApp SuperApp: 540 of 675 test cases automated.
- Built test case libraries and CSV suites from Figma designs for the Mutual of Omaha Kiosk App and the CXAI 2.0 web app.

  Tools: Playwright, Python, POM, Claude, GitHub Actions, Allure, Figma

Release Notes Automation | Folio3 QA team 2026

- Generates styled Word release notes and a React release page from Jira data and sends them through Slack, Gmail and Google Drive, across multiple clients and environments.
  Tools: Jira, React, Slack, Gmail, Google Drive

QA Portfolio with a published QA report | shozbro.github.io 2026

- Tested my own portfolio like a client product: 87 automated Playwright tests across 17 window sizes, WCAG 2.1 AA checks with axe-core, 28 defects logged and fixed, and a public execution report.
  Tools: Playwright, axe-core, html-validate, JavaScript

FCF FIFA 2026 Fantasy League dashboard | Side project · shozbro.github.io/fifaworldcup 2026

- Live dashboard for a 35-participant league: standings with safe, danger and elimination zones, player cards, match results, rules and PNG export. Hardened for public hosting: no API keys, no network calls, strict content security policy.

TECHNICAL SKILLS

Test Automation: Playwright, Selenium, Cypress, Page Object Model, TOSCA, TestComplete
AI Testing: LLM and agentic workflow testing, AI-assisted test generation, Claude, webhook validation
API Testing: Postman, Swagger, REST API validation
Performance & Security: JMeter, OWASP ZAP, Chrome DevTools performance traces
Defect & Test Management: Jira, Azure Boards, TestRail, TestWorthy, Confluence
DevOps & Version Control: Git, GitHub, GitHub Actions, Allure, CI/CD pipelines
Platforms: iOS and Android apps, web applications, SaaS, AI/LLM platforms
Methodologies: Agile, Scrum, test strategy, test planning, release management
